- A website which (in theory) cannot be accessed by a hacker is \_\_\_\_\_.  
(a) strong (b) secure (c) clean (d) good

11.-15. soruları aşağıdaki metne göre cevaplayınız.

In the nineteenth century, machines changed the world. Suddenly, people could travel more easily and communicate more quickly. Work changed, too, and many people got jobs in factories. It was the start of the Industrial Age.

The second half of the twentieth century saw the start of the Computer Age. At first, computers were very difficult to use, and only a few people understood them. But soon, computers began to appear in offices and then homes. Today, they are everywhere. Some people still say that they have never used a computer, but they probably use computers every day - they just do not realize it. This is because there are computers in so many ordinary things: cars, televisions, CD-players, washing machines.

When the first computers were built in the 1940s and 1950s, they were enormous. In fact, they were as big as a room. In 1949, the magazine Popular Mechanics made a prediction: "One day, they said, computers will be really small; in fact, they will weigh less than 1.5 tonnes." Now, computer chips can be as small as this letter O. Over the past fifty or sixty years, computers have changed much more than people thought possible.

- When did the age of computers begin?  
(a) During the second part of the 20th century.  
(b) In the middle of the 21th century.  
(c) Before the industrial age.  
(d) In the nineteenth century.

12. Which is not one of the consequences of machines changing the world?

- People could travel more easily.
- People have become able to communicate more quickly.
- Machines have completely taken over jobs from humans.
- The industrial era has begun.

13. What prediction did Popular Mechanics magazine make?

- Computers will be huge.
- Computers will be very common.
- Computers will weigh less than 1.5 tons.
- Computers will be the size of the letter O.

14. Is it true that some people do not use computers at all? Why?

- No. Because, there are computers in so many ordinary things.
- No. Because, they deny using computer.
- Yes. Because, they don't need to use a computer.
- Yes. Because, they don't like to use a computer.

15. Why were computers difficult to use at first?

- People could not buy computers because they were expensive.
- Because computers were so big.
- Because people didn't know how to use computers.
- Because computers were not useful.

16. Aşağıdaki ifadelerden doğru olanlar T yanlış olanlar F ile gösterilirse hangi seçenek elde edilir?

In dynamic IP system, you obtain one IP and continue using it.	
Your IP may be changed by ISP when you are connected to the internet.	
In dynamic IP system, every time you get a different IP number.	
In dynamic IP system, you never get disconnected from the internet.	

(a)	(b)	(c)	(d)
F	F	T	F
T	T	T	T
F	T	F	T
F	T	F	F

17. Msn Messenger ile ilgili özellikler ve bu özelliklerin açıklamaları hangisinde doğru olarak eşleştirilmiştir?

1. Contact list	a. When you are offline you can write messages.
2. Mood Status	b. This is the list of people that you interact with.
3. Offline messaging	c. You can display if you are available, busy, offline, etc.

(a)	(b)	(c)	(d)
